RE: TSCA Section 6 and Section 6(h) Compliance

Dear Customer:

Kaiser Aluminum has received numerous inquiries about our products and supply chain utilization of materials that are regulated under the Toxic Substances Control Act Section 6 and specifically Section 6(h) Persistent, Bioaccumulative, and Toxic (PBT) Chemicals as listed below:

PRIORITY 1:

- Phenol, isopropylated phosphate (PIP 3:1)

PRIORITY 2:

- Decabromodiphenylether (DecaBDE)
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBd)
- Pentachlorothiophenol (PCTP)

Kaiser Aluminum products do not contain any of the Section 6 or 6(h) chemicals and based on our review, Kaiser Aluminum manufacturing processes do not use any chemicals that are prohibited by the Section 6 or 6(h) regulations.

Kaiser Aluminum – Corporate EHS
